

Cuetec
THE NEXT DIMENSION IN CUES

Introduces...

*THUNDERBOLT*TM

You might have thought it was impossible but Cuetec does it AGAIN! First came the 15 1/2 " taper S.S.T.. Now a shaft that will **STUN THE INDUSTRY!** And the most amazing thing is that its all on the inside.

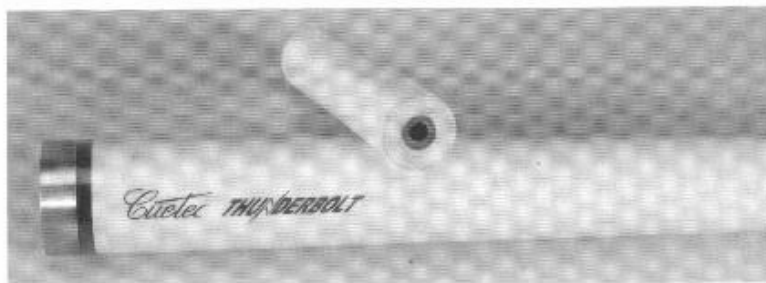

THUNDERBOLT

The Highest Quality Hard Rock White Maple is assembled AROUND a Graphite CORE that: prevents warping, increases power, helps controls deflection/squirt/distortion, drives harder & sharper for better draws & spin. Thunderbolt gives you all the benefits of a Fiberglass/Graphite clad wood core shaft **WITHOUT** the cladding.

WOOD ONLY ON THE OUTSIDE... A THUNDERBOLT ON THE INSIDE

The Thunderbolt will continue to give you the unparalleled CONTROL, PERFORMANCE, POWER, HIT, & FEEL.

Cuetec is famous for. Maintain the shaft in the same way you'd care for any quality maple wood shaft but to achieve the best results use Cuetec

"Hi-Tech". Available to fit any Cuetec butt, the Thunderbolt will help you zap the competition.

Rush out to the nearest Authorized Cuetec Dealer and check out the new Thunderbolt shaft. **WE GUARANTEE YOU'LL BE SHOCKED!**
